

ABOUT OUR COMPANY

FatCat Custom Guitars is about building guitars that light the fire inside of you, the player. Guitars that remind you of why you learned to play in the first place. Guitars that not only play well, but look awesome doing it.

While FatCat Custom Guitars is a new face on the custom guitar market, our craftsman has been playing guitar since the age of 8, as well as fixing and building his own guitars. Each guitar is hand-painted by a talented artist. This brother-sister team of craftsmen and artist want to build the best guitar you will ever own. To inquire about your custom guitar, please contact us at:

2228 Rossmore Street
Clarks Summit, PA 17322

ABOUT OUR GUITARS

Each of our guitars is guaranteed to be a quality handcrafted, handpainted, one-of-a-kind, never gonna be another one like it - guitar.

Every FatCat guitar is built with the highest level of quality of skill and materials. All wood used is the best we can find and cut by hand to make your unique guitar. All FatCat guitars come with a limited lifetime warranty.

Each guitar we make is a labor of love for us. But if you really want to know what FatCat Custom Guitars are all about you have to pick up and play one, we guarantee that you will fall in love.

We want you to fall in love with guitar all over again, so check out our guitars at:
